

## THE BEST MINDS IN ONE PLACE

*Let world renowned researchers inspire you through short audio documentaries*

## What are we about?

We are a group of fun loving academics who want to capture that pub chat experience for the entire world. Get an insight into the exciting world of academic research with our short 'audio-documentaries' on physics, history, philosophy, and many more subjects.

All audio-docs were written by experts in the subject at hand (PhD students, lecturers, professors) at some of the UK's top universities. They provide first hand accounts of their discipline, and show us what makes it great.

## IT'S AT TATE BUT IS IT ART?

How does the art world decide if an object is art or not?

narrated by Vidish Athavale

**MIGUEL F  
DOS SANTOS**

Miguel teaches and does research in philosophy at UCL. If he is not trying to solve philosophical problems, that probably means he is reading about theoretical physics or watching a Real Madrid game.
